Sort by relevance | Sort by date (new first) | Sort by date (old first)

Network security system and method using a parallel finite state machine ...
US Pat. 5414833 - Filed Oct 27, 1993 - International Business Machines Corporation
SAM is next passed to **message authentication** code (**MAC**) production means 332 ...
transmission means 306 which causes SAM and **MAC** to be transmitted **via** bit ...

Data cryptography operations using control vectors
US Pat. 4918728 - Filed Aug 30, 1989 - International Business Machines Corporation
Message authentication, as dure for initializing the crypto facility could be
... the contents of the **message** are first authenticated **via** the **MAC** using a ...

Method and device for generating approximate **message authentication** codes
US Pat. 6851052 - Filed Dec 10, 1999 - Telcordia Technologies, Inc.
60/111771 entitled "Approximate **Message Authentication** Codes" for Richard F. ...
Similarly, a **MAC** may be received **via** the network interface 110 and verified ...

Method and apparatus for producing a **message authentication** code in a cipher ...
US Pat. 6128737 - Filed Apr 20, 1998 - Microsoft Corporation
Execution then loops back, **via** path 645, to block 620 **message** or indicate an
integrity violation, ... Hence, execution proceeds, **via** the encrypted **MAC**, eg,
...

Method and apparatus for three-party entity **authentication** and key ...
US Pat. 5491750 - Filed Dec 30, 1993 - International Business Machines Corporation
The keying of the **message authentication** code (**MAC**) operation with a secret key
ensures that the **authentication** tag produced as a result of the **message** ...

Using a key lease in a secondary **authentication** protocol after a primary ...
US Pat. 6920559 - Filed Apr 28, 2000 - 3Com Corporation
... or downloaded **via** the Internet or other computer network. ... At step 472A,
WC 220 generates a first keyed one-way **message authentication** code (**MAC**) of ...

Method and means for combining and managing personal verification and ...
US Pat. 5319710 - Filed Aug 22, 1986 - Tandem Computers Incorporated
Conventional PIN validation at the destination node, and **message authentication**
procedures may be performed on 10 the received, encrypted PIN and **MAC**, ...

Cryptographic technique that provides fast encryption and decryption and ...
US Pat. 6226742 - Filed Apr 20, 1998 - Microsoft Corporation
Execution then loops back, **via** path 60 766, to block 750 to generate the value
of the next block in the recovered plaintext **message**, and so forth. ...

Apparatus and method for effecting a key change **via** a cryptographically ...
US Pat. 4688250 - Filed Jan 29, 1986 - RCA Corporation
Stated briefly, generation of a **message authentication** code (**MAC**) in the CFB
mode involves ... by the satellite to the earth station **via** the telemetry link.
...

Data **authentication** using modification detection codes based on a public one ...
US Pat. 4908861 - Filed Aug 28, 1987 - International Business Machines Corporation
Legend: **MAC** = **Message Authentication** Code using the DEA DSG = Digital ... that
the program must be validated **via** administrative procedures to make sure that
